

Consent for the Treatment of Children and Adolescents

Minors who are between 12 and 18 years of age have the right to restrict parental examination of records, but please be aware that the law may provide parents with the right to examine treatment records. Your therapist will provide them only with general information about progress unless your therapist feels that there is a high risk that you will seriously harm yourself or another, in which case your therapist will then notify them of concern.

Your signature below indicates that you have read the information in this document and agree to abide by its terms during our professional relationship.
